(text modified on 1.01.02).

Race stoppages

3.2.048 The race may be stopped only:

1) in the case of fall.

In three or four-up heats, the race shall be immediately restarted with the remaining two or three riders.

Should the fall have been caused by a competitor riding too slowly in a curve or by any other unintentional fault, the race shall be restarted and the offending rider shall take the inside of the track.

If the fall is not caused by a competitor committing a fault, commissaires shall decide whether the race is to be restarted with the riders in the same order or whether the positions at the time of the fall should be considered final.

2) in the case of a puncture.

3) in the case of the breakage of an essential part of the bicycle.

In all of these three cases, the commissaires shall decide whether the race is to be restarted with the riders in the same order or whether the positions at the time of the incident should be considered final.

4) in the following cases:

- 4.a) If a rider loses his balance, falls or touches an opponent or the barrier, the race shall be restarted and the rider in question shall take the inside of the track.
- 4.b) If the starter observes a flagrant infringement and stops the race before the bell rings to indicate the start of the last lap, the commissaires may relegate or disqualify the rider committing the infringement. The other rider shall be declared the winner or in the case of a three or four-up race, it shall be restarted as a two or three-up race.

(text modified on 1.01.02).

3.2.049 If the rider committing the infringement is not relegated or disqualified, the race shall be restarted and that rider shall take the inside of the track.

§ 4 Individual pursuit**Definition**

3.2.051 Two cyclists compete in a fixed distance. The riders start on opposite sides of the track. The winner is determined by either catching the other rider or recording the fastest time.

(text modified on 1.07.02).

Organisation of the competition

3.2.052 Races shall be run over:

- 4 km for Men
- 3 km for Women
- 3 km for Junior Men
- 2 km for Junior Women.

3.2.053 This event shall be organised in two series:

- 1) The qualifying rounds to select the best 4 riders on the basis of their times.
- 2) the finals
The riders with the two best times shall ride off in the final for first and second place while the two others shall ride off in the final for third and fourth places.

(text modified on 26.08.04).

3.2.054 At the Olympic Games, there shall be 3 phases of competition:

- 1) The qualifying rounds to select the best 8 riders on the basis of their times.
- 2) The first competition round. The 8 fastest riders will be matched as follows:
The rider having obtained the 4th fastest time against the one having obtained the 5th fastest time;
The rider having obtained the 3rd fastest time against the one having obtained the 6th fastest time;
The rider having obtained the 2nd fastest time against the one having obtained the 7th fastest time;
The rider having obtained the fastest time against the one having obtained the 8th fastest time.
- 3) The finals:
The four winners of the first competition round shall contest the finals. The riders with the two best times shall ride off in the final for first and second places while the two others shall ride off in the final for third and fourth places.
- 4) The riders beaten in the first competition round shall be classified in 5th to 8th places on the basis of their times in the semi-finals. If a rider is caught, he shall be classified in 8th place; if several riders are caught they shall be classified in the last places on the basis of the distance which they covered before they were caught.

(article introduced on 26.06.07).

3.2.055 For the qualifying rounds the commissaires shall make up each match from riders presumed to be of equal ability, but without matching the two presumed to be the best.

3.2.056 During the qualifying rounds account shall be taken solely of times.

If a rider is caught he must finish the distance to have a time recorded.

A caught rider may not take pace from his opponent, nor pass him, on pain of disqualification.

3.2.057 In a race between two of the four best riders (finals), if one rider catches the other the race is deemed to have finished.

3.2.058 A rider is considered to have been caught at the point that the chainset on his opponent's bicycle draws level with that on his own bicycle.

3.2.059 If a rider fails to take the start in the first competition round, no substitution shall be made. The rider who fails to start will be classified in 8th place.

If several riders fail to start, they shall be classified in 8th place and above in order of their times in the qualifying rounds. The rider who takes the start must ride alone to set a time to determine the composition of the finals.

(text introduced on 26.06.07).

3.2.060 Should a rider fail to take the start of a final, his opponent is declared the winner.

A rider failing to start the final for 1st and 2nd places shall be placed 2nd; a rider failing to start the final for 3rd and 4th places shall be placed 4th. If the reason for failing to ride is not accepted, the absent rider shall be disqualified and his place shall remain vacant.

3.2.061 In the event that riders record the same times, the rider who records the best time for the final lap shall be declared the winner.

(text modified on 13.06.08).

Preparation of the track

3.2.062 The blue bands shall be made impassable round the bankings by the placing every 5 metres of 50 cm long pads of a synthetic material.

3.2.063 At the start the two riders shall be positioned at diametrically opposite points on the track.

§ 5 Team pursuit**Definition**

3.2.077 The team pursuit is a race with two opposing teams, starting on each side of the track. The winner is determined by either catching the other team or recording the fastest time.

The men event is run over four kilometres by teams of four riders.

The women event is run over three kilometres by teams of three riders.

(text modified on 1.01.02; 26.06.07).

Organisation of the competition

3.2.078 Except for the specific details (even implicit) in this sub-section, the rules of the individual pursuit shall apply equally to the team pursuit.

3.2.079 Teams shall be made up of riders entered for this event. The composition of the team may vary from one race to another.

The team manager must notify the commissaires of any changes at least one hour before each start.

(text modified on 1.01.02).

3.2.080 The time and the classification of each team shall be taken on that of the third rider of each team. The time shall be measured on the front wheel of the third rider of each team.

(text modified on 1.01.02; 1.01.03).

3.2.081 A team is caught when the opposing team (at least 3 riders riding together) arrives at or within a distance of one metre of it.

3.2.082 Qualifying rounds shall be organised to find the 4 best teams, 8 for the Olympic Games.

At the Olympic Games, the 8 Teams recording the best times in the qualifying rounds shall be matched in the first competition round as follows:

The four winning teams from the first competition round shall dispute the finals. The teams having made the two best times shall ride the final for first and second places and the other two teams shall ride the final for third and fourth places.

The teams beaten in the first competition round shall be classified in 5th to 8th places on the basis of their times; if a team is caught it will be placed 8th; if several teams are caught, they shall be classified in the last places on the basis of the distance that they rode before being caught, the distance in question being the distance ridden by the team up to the last half-lap before the signal was given by the commissaires.

(text modified on 1.01.02; 26.08.04; 26.06.07).

(text modified on 1.01.02; 26.08.04; 26.06.07).

- 3.2.096** Pushing between members of the same team is strictly forbidden on pain of disqualification in the qualifying rounds and relegation in the first competition round.

During the finals, that team loses its finals.

(text modified on 1.01.02; 26.08.04; 26.06.07).

- 3.2.097** When the commissaires see that a team is about to be caught, they shall, in order to avoid a collision with the other team or hinder its progress, signal to the former team with a red flag that it may not effect any more relays and remain at the bottom of the track until the opposing team has passed.

Any failure to act on this instruction shall result in the immediate disqualification of the team.

(text modified on 1.01.02).

- 3.2.098** The race shall be over at the moment that the third rider of each team crosses the finishing line for the final time at full distance or, in the finals, at the point that one team (at least 3 riders riding together) catches the other team.

(text modified on 1.01.02).

(text modified on 21.01.06).

3.2.246 Each day, in addition to the partial classification of the race or stage, a general classification shall also be prepared on the basis of the number of laps completed and points acquired.

The total distance covered over the six racing days, expressed in complete laps, and the total number of points obtained shall determine the final classification.

(chapter introduced on 07.07.06).

Definition

3.2.247 The omnium consists of five events which shall be held on one day in the following order:

- 1) 200 metres time trial (flying start)
- 2) Scratch race (equal to the number of laps closest to 5 km)
- 3) Individual pursuit (3000 metres - 2000 metres for junior - without finals, opposing each time two riders seeded from the overall ranking after the scratch race)
- 4) Points race (15 km with 6 sprints)
- 5) Kilometre time trial (each time with two riders on the track, seeded from the overall ranking after the points race)

Organisation of the competition

3.2.248 Whenever possible, there shall be an interval of at least 30 minutes between two events.

3.2.249 Any rider failing to attempt to start in one of the events shall not be allowed to take part in the subsequent events but shall be considered to have abandoned the competition. He shall therefore figure last in the final classification with the provision “DNF” (did not finish).

Ranking

3.2.250 A full result shall be produced for each event.

3.2.251 A cumulative total of ranks obtained in each event shall be updated in increasing order after each event. The winner shall be the rider who has obtained the lowest total of rankings.

3.2.252 In the event of a tie, the best rider shall be determined by the lowest cumulated time of the time trial events.

Chapter UCI INDIVIDUAL TRACK CLASSIFICATION

[chapter introduced on 31.05.04].

- 3.3.001** The UCI has created an individual classification system for riders of elite and juniors categories participating in the races referred to in article 3.3.009.

Points won in competitions for the under 23 category will be integrated in the elite classification.

This classification shall be called the “UCI Track Individual Classification” and shall be the exclusive property of the UCI.

(text modified on 25.09.07).

- 3.3.002** A classification shall also exist of the corresponding nations and shall be the exclusive property of the UCI.

- 3.3.003** The classification shall be established according to the points obtained by riders participating in Track races on the International calendar, divided into classes according to article 3.8.003.

Track races on the International calendar having 50% and more of the riders per category, being invited, will not be awarded point.

The classification starts from scratch immediately after the Elite World Championships and ends at the end of the following edition of the Elite World Championships.

The track commission may grant dispensation in case of unpredictable late change of the Elite World Championships dates.

(text modified on 10.06.05; 25.09.08).

- 3.3.004** The number of points to be won in each race is indicated in article 3.3.010.

For the competitions in classes 1 to 4, only events matching the participation criterias will award UCI points.

- 3.3.005** For each event UCI points will be awarded once per event in each competition.

For the competitions run as a tournament, UCI points will be awarded according to the overall standings of the speciality. In the absence of overall standings, the event which will award the UCI points shall be clearly identified on the programme of the competition, failing that, the points will not be awarded.

- 3.3.006** National Federations and organisers shall be required, immediately following the end of the race, to transmit to UCI Headquarters by e-mail or telefax the list of starters and complete results. For races over several days, this information shall be transmitted within 72 hours of the end of the last day race.

All National Federations shall immediately communicate any facts or decisions that could result in an amendment to the points obtained by a rider.

Should such information not be transmitted, the Management Committee may declassify the race in question or exclude it from the Calendar, notwithstanding any other penalties provided for in the Regulations.

- 3.3.007** The Individual Classification and the Classification by Nation shall be drawn up at least twice a month.

If need be, the classification of preceding months will be corrected.

- 3.3.008** The UCI Management Committee may award prizes to riders, in accordance with such criteria as it may establish and with their placing within the system of Classification.

Should the Classification be rectified, prizes already awarded shall be returned and given to the entitled riders according to the revised Classification.

Regional games

The points awarded for the regional games will be in accord with the number of national federations participating, that is to say:

- 6 nations and more:** the points are those awarded to an international event of class 1;
5 nations: the points are those awarded to an international event of class 2;
4 nations: the points are those awarded to an international event of class 3;
1 to 3 nations: no point.

When a nation is represented by several regional teams, the points will be awarded to the best rider(s) of this nation up to the maximum number of participants permitted for teams by the specific regulation of each event.

National championships

At the end of the last season (last World Championships), in accordance with the nations ranking by event, the points are awarded **to the top 12 riders** as follows:

- From the 1st to the 5th place: the points are those awarded to **an international event of class 1**;
From the 6th to the 10th place: the points are those awarded to **an international event of class 2**;
From the 11th to the 15th place: the points are those awarded to **an international event of class 3**;
Beyond the 15th place: the points are those awarded to **an international event of class 4**.

Points will only be allocated to the national championships registered beforehand and appearing on the UCI International Track Calendar. The results must reach the UCI electronically or by fax within one working day after the competition is finished.

Where elite and under 23 men compete in the national championships at the same event, points are awarded according to their position in the classification of the event.

For national federations organizing a separate event for the under 23 category, the points are awarded in accordance with the same scale as for the corresponding elite event.

Where several nations organize a national championship jointly, the points scale applicable is that of the highest ranked nation.

Where the title of national champion is awarded at an international event, the riders, regardless of their nationality, shall be awarded the points relative to their position in the classification of that event.

(text modified on 10.06.05; 19.09.06; 25.09.07; 13.06.08).

3.3.011 The order of precedence between riders on equal points shall be determined according to their classification of events in the following order:

- 1) *World Championships;*
- 2) *World Cups;*
- 3) *Continental Championships;*
- 4) *International event of class 1;*
- 5) *International event of class 2;*
- 6) *International event of class 3;*
- 7) *International event of class 4.*

If they still stand equal, precedence shall be awarded to the rider with the best classification in the most recent event of the same class.

Where: D = distance covered in the hour

L Pi = length of track

TC = number of complete laps before the last lap

Di C = additional distance

TTC = time of the last complete lap

TRC = time remaining to ride at the beginning of the last lap

3.5.032 The distance covered shall be rounded down to the nearest metre. Neither the Hour Record nor the Best Hour Performance may be beaten by less than one metre.

**TECHNICAL SPECIFICATIONS AND VELODROMES
HOMOLOGATION:****§ 6****Velodromes**

3.6.064 Track events included on the UCI International calendar must be held at a UCI-homologated velodrome. Exceptionally, special dispensations may be granted by UCI for Velodromes in use prior to 2001.

Track events included on national calendar may be held at a nationally homologated or a UCI-homologated velodrome.

3.6.065 A velodrome may not be homologated by the UCI unless it meets the following conditions.

3.6.066 The stability and resistance of the materials and fixings which make up the structure of the velodrome shall meet the legislation regarding construction and safety of the country in which it is built and shall take account of specific geological and climatic conditions.

These elements, along with general compliance of the construction and construction materials with technical standards and good practice, remain the exclusive responsibility of the owner, contractor, architect, consulting engineer, proprietor, operator, user, organiser or others, in accordance with local legislation or regulations. The UCI is exempt from any responsibility in this regard.
